1/ Crop value from 2004 forward is based on grower prices while prior to that, it is on an f.o.b. shipping-point basis. 2/ Reported data includes some processing uses in addition to fresh-market information. 3/ Value excludes production not marketed because of shrinkage. 4/ When comparing to past years, note that data for 2000 and 2001 may not be directly comparable to previous years and 2002-07 due to changes in the vegetable program in 2000 and 2002.
