\* = Posted national price. Note: Rgnl = regional. The weekly loan deficiency payment rate is calculated as the loan rate less the posted price.

1/ Applies to smooth green and yellow, wrinkled, winter (includes Austrian), miscellaneous (including marrowfat peas), and mixed dry peas. U.S. loan rate = \$5.40.

2/ Applies to all lentil varieties. U.S. ave loan rate = \$11.28. 3/ Applies to desi and small-sieve kabuli chickpeas that fall through a 20/64 inch grading screen. 4/ The statutory marketing assistance loan rate of \$11.28 applies across the country with the original announced regional rates of \$10.18 (East) and \$11.48 (West) modified due to thin markets on 6/17.

1/ These prices differ from table 1 as they represent a national average rather than a specific shipping area. They also are representative of an average for all uses and all grades, food and nonfood. 2/ The marketing year for chickpeas begins in September. 3/ Publication of monthly marketing percentages for dry peas, chickpeas, and lentils began in 2003/04.
