Subject of Review: The Economic Research Service (ERS) maintains a dynamic dairy sector model for the United States. This model is used to aid in the development of dairy projections as published in USDA Agricultural Projections each year. The model is also used for scenario analyses with respect to changes in public policy and market conditions. This report provides documentation on the specification and estimation employed by this model to obtain long-term projections.

Purpose of Review: The purpose of the review is to ensure the high-quality of the economic analysis, transparent explanation of methods, objective interpretation of results, and effective communication to the intended audience.
