I. FOOD COSTS AND PROGRAM PARTICIPATION

[LEAD] This month we are asking some questions about food used in your household and the ways you are managing to meet your food needs.

I. FOOD EXPENDITURES

S1A If more than one hhmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

These first questions are about all the places at which you bought food last week. By last week, I mean from Sunday through Saturday.

First, did (you/anyone in your household) shop for food at a supermarket or grocery store last week?

<1> Yes
<2> No

Blind <D> or <R>
SCOMPL  If onpath entry, D or R in S1A then set SCOMPL=1 otherwise set SCOMPL=0

S1B  If more than one hhmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option. Think about other places where people buy food, such as meat markets, produce stands, bakeries, warehouse clubs, and convenience stores. Did (you/anyone in your household) buy food from any stores such as these last week?

<1> Yes
<2> No

Blind <D> or <R>

S1C  If more than one hhmem=1 has an AGE equal to or greater than 6 fill with second option else fill with first option else fill with first option in first parenthetical.

If one or more hhmem=1 with AGE between 6 and 18 then fill second parenthetical with first option else fill with second option.

Last week, did (you/anyone in your household) buy food at a restaurant, fast food place, cafeteria, or vending machine? (Include any children who may have bought food at the school cafeteria/ ).

<1> Yes
<2> No

Blind <D> or <R>

S1D  If more than one hhmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

Did (you/anyone in your household) buy food from any other kind of place last week?

<1> Yes
<2> No

Blind <D> or <R>
SCKA  If onpath entry of <2>, <D> or <R> in S1A, S1B, S1C and S1D then skip to S8 else go to Slead.

Slead  Now I'm going to ask you about the ACTUAL amount you spent on food last week in all the places where you bought food. Then, since last week may have been unusual for you, I will ask about the amount you USUALLY spend.

<P> Proceed

SCKB  If onpath entry of <1> in S1A then ask S2 else skip to SCKC.

Items S2 through S2COR go into making the out variable S2O. S2O is the amount spent at supermarkets and grocery stores (S1A=1) and it should be used as THE variable for supermarket amounts.

S2  If more than one hhmem=1 has an AGE equal to or greater than 10 fill with second option else fill with first option.

    If POOR=2 then fill second parenthetical with first option else fill with second option.

    How much did (you/your household) ACTUALLY spend at supermarkets and grocery stores last week (?)/including any purchases made with food stamps?)

S10CK  If SP1 = 1, D, or R then fill second parenthetical with second option else fill with first option.

S10    If definite amount calculated in S8, fill first parenthetical with S8O else if range given in S8 fill with range calculated.

You said that altogether your household usually spends ($_ _ _ _ / about $_ _ _ _ to $_ _ _ _) on food in an average week. This next question asks you to estimate the LOWEST amount of money that you would need to spend on food to meet the food needs of your household.

What is the LOWEST POSSIBLE amount that you could spend for food, per week or per month, and still provide a healthy, acceptable diet for your household (/including any purchases made with food stamps)?

   $_ _ _ _

   <1> Per week
   <2> Per month

Blind <D> or <R>

Use S10A and S10B here, not S10. S10A is the amount, S10B indicates "per week" or "per month".
