

**Current Population Survey Food Security Supplement
Facsimile of Questionnaire
April 1997**

Revision May 17, 2000

Document Revision History on ERS Worldwide Web Site

(Note: Posting to web may lag revision date by up to 10 days.)

July 1999 - Original posting (questionnaire posted was actually from a different survey)

January 7, 2000 - Replaced the earlier, incorrect, questionnaire with CPS-FSS questionnaire.

January 20, 2000 - ERS corrected screener specifications (CKALT - CK171) to reflect what we believe was actually implemented in the CAPI.

May 17, 2000 - ERS added "Source and Reference Information" and "Variable Names in the Data File" sections and corrected value labels for S9AM (month of last food stamp receipt) and labeled subquestions under S13 (reasons you don't always have enough to eat) and S13A (reasons you don't always have the kinds of food you want) to be consistent with variable names in the data file.

Questionnaire Source and Reference Information

The Current Population Survey is administered via a computer assisted phone interview (CAPI) system. This "paper" questionnaire reflects the questionnaire specifications as they existed late in the process of specifying the computer instrument. However, some changes in the final implementation may have been made, either intentionally or accidentally. Where these have been detected, this questionnaire has been modified to reflect what was actually implemented.

The Census Bureau provided the questionnaire to ERS with file data January 7, 2000, along with CAPI specifications for the April 1997 CPS and FSS instrument. ERS corrected the questionnaire in accordance with the CAPI specifications and the data file.

Variable Names in the Data File

Variable names in the microdata file generally consist of an HE prefix (household variable, edited for out-of-range values and skip patterns) followed by the question number.

I. FOOD EXPENDITURES

S1CK If MISCK=1,2,3,5,6, or 7, then ask S1a else ask S1A1.

S1A1 "People buy food from different kinds of places such as supermarkets, grocery stores, warehouse clubs, convenience stores, restaurants, cafeterias, and vending machines. Thinking about all the different types of places where (you/you and other members of your household) buy food, how much (do you/does your household) usually spend on food per week (/including any purchases made with food stamps)?"

\$___.00

Blind <D> or <R>

SKIP to SCK9

Item S1A1 make the out variable S1AO. S1AO is the amount usually spent by the household on food at all types of stores. This item is only asked of MIS 4 and 8 households.

S1A These first questions are about the places where you and all the other members of your household bought food last week. By last week, I mean from Sunday through Saturday.

First, did (you/anyone in your household) shop for food at a supermarket or grocery store last week?

<1> Yes

<2> No

Blind <D> or <R>

SCOMPL If onpath entry, D or R in S1A then set SCOMPL=1 otherwise set SCOMPL=0

S1B Think about all the other kinds of places where people buy food, such as meat markets, produce stands, bakeries, warehouse clubs, and convenience stores. Did (you/anyone in your household) buy food from any stores such as these last week?

<1> Yes

<2> No

Blind <D> or <R>

S1C Last week, did (you/anyone in your household) buy food at a restaurant, fast food place, cafeteria, or vending machine? (Include any children who may have bought food at the school cafeteria/).

<1> Yes

<2> No

Blind <D> or <R>

S1D Did (you/anyone in your household) buy food from any other kind of place last week?

<1> Yes

<2> No

Blind <D> or <R>

SCKA If onpath entry of <2>, <D> or <R> in S1A, S1B, S1C and S1D then skip to S8 else go to Slead.

Slead Now I'm going to ask you about the ACTUAL amount you spent on food last week in all the places where (you/you and all the other members of your household) bought food. Then, since last week may have been unusual for (you/your household), I will ask about the amount (you/your household) USUALLY spends).

<P> Proceed

SCKB If onpath entry of <1> in S1A then ask S2 else skip to SCKC.

Items S2 through S2COR go into making the out variable S2O. S2O is the amount spent at supermarkets and grocery stores (S1A=1) and it should be used as the variable for supermarket amounts.

S2 How much did (you/your household) ACTUALLY spend at supermarkets and grocery stores last week (?/including any purchases made with food stamps?)
