INTRODUCTION
[Introduce yourself, and ask for the operator. Rephrase in your own words.]

We are collecting information on practices to produce winter wheat and need your help to make the information as accurate as possible. Authority for collection of information on the Winter Wheat Production Practices Report is Title 7, Section 2204 of the U.S. Code. This information will be used for economic analysis and to compile and publish estimates for your region and the United States. Response to this survey is confidential and voluntary.

We encourage you to refer to your farm records during the interview.
1. How many acres of winter wheat did this operation plant for the 2000 crop year?
   - If no acres planted, review Screening Survey Information Form.
   - For Winter Wheat, record acres planted Fall/Winter 1999 for 2000 crop year.

   TOTAL PLANTED ACRES
   0019

3. I will follow a simple procedure to make a random selection from the winter wheat fields planted for the 2000 crop.

   What is the TOTAL number of winter wheat fields that were planted on this operation?

   TOTAL NUMBER OF FIELDS PLANTED
   0020

4. Please list these fields according to identifying name/number or describe each field. Then I will tell you which field has been selected.
   - If there are more than 18 fields make sure item 3 is TOTAL fields planted, and list only the 18 fields closest to the operator’s permanent residence.
   - If respondent is unable to identify or describe the fields, use the Field Selection Grid Supplement.
