In recent years, exports under credit guarantee programs may overlap EEP sales.

Barter sales outside of the PL 480 program were reported for 1982 and 1984.

The market value of agricultural commodites sold by the CCC was not available prior to 1978.

Get these timely reports from USDA's Economic Research Service

These periodicals bring you the latest information on food, the farm, and rural America to help you keep your expertise up-to-date. Get the latest facts, figures, trends, and issues from ERS. To subscribe to these periodicals, call toll free, 1-800-999-6779 (in the United States and Canada), or use the order form on the next page.

Agricultural Outlook. Presents USDA's farm income and food price forecasts. Emphasizes the short-term outlook, but also presents long-term analysis of issues ranging from international trade to U.S. land use and availability. Packed with more than 50 pages of charts, tables, and text that provide timely and useful information. 11 issues annually.

Economic Indicators of the Farm Sector. Updates economic trends in U.S. agriculture. Each issue explores a different aspect of income and expenses: national and State financial summaries, production and efficiency statistics, costs of production, and an annual overview of the farm sector. 6 issues annually.

Farmline. Concise, fact-filled articles focus on economic conditions facing farmers, how the agricultural environment is changing, and the causes and consequences of those changes for farm and rural people. Synthesizes farm economic information with charts and statistics. 11 issues annually.

Foreign Agricultural Trade of the United States. Every 2 months brings you quantity and value of U.S. farm exports and imports plus price trends. Subscription also includes two big 300-page supplements containing data for the previous fiscal or calendar year. A must for traders.

Journal of Agricultural Economics Research. Technical research in agricultural economics, including econometric models and statistics on methods employed and results of USDA economic research. 4 issues annually.

National Food Review. Offers the latest developments in food prices, product safety, nutrition programs, consumption patterns, and marketing. 4 issues annually.

Rural Development Perspectives. Crisp, nontechnical articles on the results of the most recent and the most relevant research on rural areas and small towns and what those results mean. 3 issues annually.

Situation and Outlook Reports. These reports provide timely analyses and forecasts of all major agricultural commodities and related topics such as finance, farm inputs, land values, and world and regional developments. Specific titles are listed on the order form on the next page.

Reports. This *free* catalog describes the latest in ERS research reports. It's designed to help you keep up-to-date in all areas related to food, the farm, the rural economy, foreign trade, and the environment. 4 issues annually.

Reports you can use . . . from ERS

U.S. Agricultural Trade Update gives you up-to-the-minute information.

Each month the *U.S. Agricultural Trade Update* brings you ERS' most up-to-the-minute data on the farm trade sector. This useful 6-page update brings you the most current figures, *delivered by first-class mail to ensure timely delivery*.

The U.S. Agricultural Trade Update covers the monthly farm trade balance, U.S. farm imports and exports by quantity and value, and leading exports and exporters.

A 1-year subscription to the *U.S. Agricultural Trade Update* costs just \$15. Or save by ordering a 2-year subscription (that's 24 issues) for \$29, or a 3-year subscription for \$42.

Situation and Outlook Agricultural Trade Reports give you the facts . . . and the forecasts!

These reports provide both current intelligence and historical data on international food and agricultural developments. They also forecast how changes in conditions and policies around the world will affect both U.S. and international agriculture.

Outlook for U.S. Agricultural Exports offers the latest value and volume of U.S. farm exports, by commodity and region, as well as the agricultural trade balance, import commodities, and export outlook. World Agriculture offers production and use data and analyses by commodity and country, along with a review of recent economic conditions and changes in food and trade policies. World Agriculture Regional reports summarize the year's developments affecting U.S. agriculture and trade in five key regions, and look to the future with articles on market trends, trade, and policy (regional reports include USSR, China, Western Europe, Pacific Rim, and Developing Economies).

The cost is just \$12 for a 1-year subscription per title. Or save by ordering a 2-year subscription for \$23, or a 3-year subscription for \$33.
