The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and, where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA’s TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
Abstract

About one in five Americans participates in at least one of USDA’s food and nutrition assistance programs at some point during the year. At a cost of almost $53 billion in fiscal year 2006—over half of USDA’s annual budget—these programs represent a significant Federal investment. Sound research is needed to ensure that the programs operate effectively and efficiently. Since 1998, Congress has provided funds to the Economic Research Service to study and evaluate the Nation’s domestic food and nutrition assistance programs. ERS established the Food Assistance and Nutrition Research Program (FANRP) to carry out this activity. FANRP has become the premier source of food and nutrition assistance research in the United States, sponsoring over 600 publications on a wide range of topics related to food and nutrition assistance. This report, prepared at the 10-year anniversary of the FANRP program, highlights some of the key research conducted during the program’s first decade.

Keywords: food and nutrition assistance research, Food Assistance and Nutrition Research Program, FANRP, Food Stamp Program, child nutrition programs, WIC, income volatility, childhood obesity, food security, welfare reform

## Contents

Chapter 1—Introduction

- FANRP—Leading the Way .................................................. 5
- FANRP Areas of Research ................................................ 6
- Dissemination of Research Findings .................................... 7
- Report Organization ....................................................... 7

Chapter 2—Food Stamp Program Research

- Research Highlights ......................................................... 8
  - Assessing Diet, Health, and Other Program Outcomes ........... 8
  - Program Access and Participation .................................... 10
  - Program Administration .................................................. 12
  - Other Food Stamp-Related Studies .................................... 13

Chapter 3—Child Nutrition Programs Research

- Research Highlights ......................................................... 15
  - Assessing Diet and Health Outcomes ................................. 15
  - Program Participation ..................................................... 16
  - Program Administration .................................................. 17

Chapter 4—WIC Program Research

- Research Highlights ......................................................... 20
  - Assessing Diet, Health, and Other Program Outcomes ........... 20
  - Program Access and Participation .................................... 22
  - Program Administration .................................................. 23

Chapter 5—Linkages with the Economy

- Research Highlights ......................................................... 26
  - Economic Conditions Impact the Food Assistance Programs .... 26
  - Food Assistance Programs Affect Economic Activity .......... 27

Chapter 6—Income Volatility

- Research Highlights ......................................................... 29
  - Income Volatility and Food Stamps .................................... 29
  - Income Volatility and Other Food Assistance Programs ........ 30
  - Income Volatility and Food Insufficiency ............................ 31
